

Environmental Policy

Purpose:

To make all efforts to minimise fuel burned and waste generated in the production of Community Radio, also to promote Environmental awareness in the Community

Methods:

Reduce printing and general paper use

Phase out postal use by moving to online & email service for correspondence

Eliminate as far as practicable the single use plastic containers and soft plastics on site

Educate all Volunteers about utilising re-useable drink bottles and Tap Water

Have only re-useable cups, mugs, plates & cutlery in the Studio Building and on site

Rigorous use of the multi-bin system for Waste & have food waste removed for composting

Encourage Community Groups with a specific interest in solving Environmental issues to put shows to air communicating their solutions to the listening Public

Currently – Community & Rotary/Lions projects (recycling & planting)

Provide CSAs for days or events such as Clean up Australia Day (1st Sunday in March)

Liaise with both Mitchell and Strathbogie Shires to provide CSAs to support their waste management and environmental programs

Inform and encourage through CSAs participation in State run Container Deposit Scheme

Facilitate use of Remote/From Home Studio use by Presenters to reduce travel

Car sharing for OB crews travelling to other Towns for Sport or Community Events

Use Solar Power source to power electronics where possible

Provide sound Environmental information to listeners and members

Publicise the Local Public Transport system and encourage Bicycle use
